## All About Our Products

A Gripper could be a refined piece of hardware that permits associate degree skilled workers to regulate the peak of a fixture while not utilizing tools. And as a good cable gripper maker, we make the gripper a plunger and 3 balls among the gripper surround the surface diameter and catch the cable because it passes through the gripper.

This side exit cable gripper good to strain forces the balls to grab the cable during a pinching movement.

We offer over thirty grippers. Our gripper inventory offers several grippers in numerous diameters and screw sizes. The knock out of the fixture is a crucial consider choosing the proper gripper.

Features Of Side Exit Cable Gripper,

- Fine Finishing
- Dimensionally Correct
- Extremely Durable Composition
- Resistance Against Corrosion
