

SURAJ BRASS INDUSTRIES

AN ISO 9001 : 2015 CERTIFIED COMPANY

One Stop Solution For All Metal Parts

**Serving 100%
Satisfaction**

**MANUFACTURER & EXPORTERS
OF ALL KINDS OF BRASS PARTS**

Manufacturing Process

We have a systematic operating procedure (SOP) integrated for managing clients. Inquiries are sent to the professionals once they are received through different channels. Here are the steps we follow once the inquiry is received.

- 1) Understanding Customer Requirements: We collect customer information to understand the product requirements.
- 2) Getting Raw Material - We source the required raw material from authentic partners for production.
- 3) Machining Process - Product development goes through the machining process, where crafting, designing, and molding is done.
- 4) Finishing the product - After the product development, the final finishing is applied to achieve aesthetic and functional value.
- 5) Testing on the product - The quality check team conducts the final product testing, where design, shapes, size, and finishing are meticulously checked before sending it for packaging.
- 6) Packing the product - All the products are finely packed in durable packaging material for shipment.
- 7) Dispatch the Product - Products are dispatched on time and delivered before the specified deadline.

For whom we work

We are working with top companies in various industries. Developing metal products using innovative techniques is helping us to assist corporations to function efficiently. We offer continuous support with trained personnel, modern machinery, the best casting technology, and robust testing equipment. Because of our strong foothold in manufacturing,

we serve almost all industries

Automobile Industry

Construction Industry

Lighting Industry

Electrical Industry

Mechanical Industry

Decorative Industry

Medical Industry

Smoking industry

Agriculture Industry

Plumbing Industry

Marine Industry

Hardware Industry

Company Profile

Suraj Brass Industries has been empowering passionate entrepreneurs with its innovative solution since its inception in 2005. The company accelerated the growth rate under the vision of the blissful headship of the honorable CEO Mr. Sujit Bhanderi. He has profound knowledge and experience in the realm of Brass Metal Products. His perseverance has assisted the company in achieving milestones in the highly competitive marketplace.

Today, Suraj Brass Industries is a renowned name in Brass metal products manufacturing and suppliers in India. We are the largest player in producing brass products at a comprehensive range that you will never find in any other organization. The company has expertise in producing various electrical brass parts, brass forging parts, Brass lighting parts, Brass Nuts & Bolts, Brass Cable Glands, etc.

Precision-Crafted Custom Products

Since our establishment in the industry, we aim to provide the highest quality products to satisfy customer needs. Our meticulously built machinery, fine craftsmanship, a team of professional artists, and experienced engineers offer precision engineering on each product developed under the roof. High-end tailor-made solutions are provided to the clients. Custom facilities where a selection of shape, size, color, diameter, coating, and material used in the development of the product is chosen by the customer. It gives freedom to the customer to decide on their final product. Our manufacturing process is entirely different than what you find in the global market.

Unmatched Quality Standards

Our constant development and focus on quality improvement help us to deliver unmatched solutions and a grade of international standards on every product that comes through the factory. The production process is directed toward producing durability and sustainable products. The use of physics' first principle approach provides us with complete control over the nucleus of the metal and achieves the desired outcome using cost-effective solutions.

Positive Approach

We accept every project positively and assure the clients that their products will be delivered on time. Every assignment proceeds as per the given instruction by the client. We incorporate the client's vision into our manufacturing process to produce the desired outcome. Our positive approach to every assignment we accept keeps us close to our customers.

Delivering Value for Your Money

Right from the inquiry to the final delivery of the product, every stage of manufacturing is precisely developed to ensure the value proposition is always kept high for the customer. Beginning from material procurement, production, engineering, testing, packing, storing, and final delivery of the order is done through systematic procedure. Every penny spent on the production of the product is valued at the highest as possible.

SURAJ BRASS INDUSTRIES

AN ISO 9001 : 2015 CERTIFIED COMPANY

Brass Fitting Parts

We are India's top Brass fitting parts manufacturer. We develop premium quality products designed to serve the purpose and come with a long-term sustainability guarantee. Brass fitting parts development or replacements is performed on demand. Our precision engineering will provide you with reliable solutions to meet your expectations.

Brass Forging Parts

We offer high-quality brass forging parts for various applications and industries. Quality-approved material is sourced from authorized dealers to craft the parts. Our product range is determined by durability, tensile strength, resistivity, and cost-effectiveness. Moreover, customers can choose the size, shape, and design to produce brass forging parts for their applications. Client satisfaction is the ultimate goal of our company.

One Stop Solution For All Metal Parts

Serving 100% Satisfaction

SURAJ BRASS INDUSTRIES

AN ISO 9001 : 2015 CERTIFIED COMPANY

Brass Lighting Parts

We have experience developing a wide range of brass lighting parts, including lamp holders, lamp parts, components made of brass metal, brass lighting accessories, lamp holders, and various components required in lighting applications. In a nutshell, we can help you produce brass metal lighting parts of any size, design, or shape at affordable prices. Provide the product details to our engineers to create the product you desire for your applications. Our experts will supply the highest-grade products on time.

Brass Cable Grippers

Our brass cable grippers are made of premium quality brass metal. Precision engineering will ensure the parts' dimensions are accurate according to the details shared by the customers. The product will sustain longer, offering you the benefit of reducing the cost of maintenance. Get reliable and efficient brass cable grippers made in our factory.

One Stop Solution For All Metal Parts

Serving 100% Satisfaction

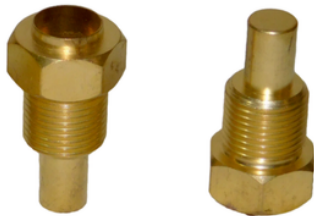

SURAJ BRASS INDUSTRIES

AN ISO 9001 : 2015 CERTIFIED COMPANY

Brass Automobile Parts

We manufacture and supply a complete range of Brass automobile parts. Leading companies in the automobile sector use our manufactured products. Instant availability, replacement, and new development are key characteristics that make us a dependent partner in brass automobile parts manufacturing and supply.

Brass Medical Parts

All types of brass medical parts are manufactured in our factory. Special compositions of the metal will be arranged to produce specific types of medical parts for special applications. Clients have complete control over the selection of the metal, design, size, and finishing of the product. Our team will produce the products according to the instruction received from the client. Our state-of-the-art production factory ensures consistency in every product manufactured in our facility.

One Stop Solution For All Metal Parts

Serving 100% Satisfaction

SURAJ BRASS INDUSTRIES

AN ISO 9001 : 2015 CERTIFIED COMPANY

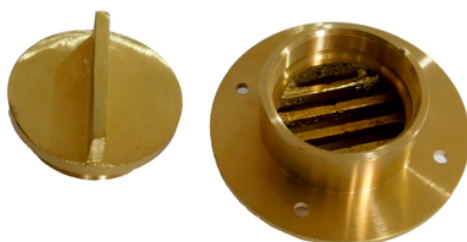

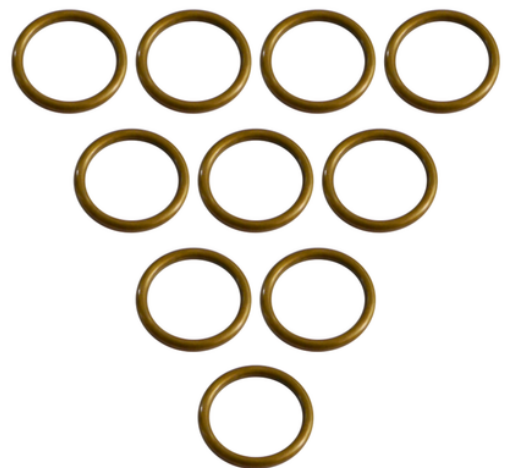

Brass Smoking Parts

High grade, precision, efficient design, and accurate dimension are some characteristics of the brass smoking parts building process. Our manufacturing process is 100% flexible, which puts the client in the decision-making position. All types of brass smoking parts are manufactured under one roof. A robust manufacturing process guarantees the highest quality and precision craftsmanship.

Brass Marine Parts

We are a trusted company developing and designing the best range of Brass marine parts. Various companies use our components to power marine hardware of different sizes and shapes. The best product guarantees the safety and security of the final applications. Get hardware products, spare parts, and accessories made of high-quality brass material from us. We work towards ensuring the right solution is developed and delivered on time.

One Stop Solution For All Metal Parts

Serving 100% Satisfaction

SURAJ BRASS INDUSTRIES

AN ISO 9001 : 2015 CERTIFIED COMPANY

Brass Sanitary Parts

Brass sanitary parts are developed with great care to withstand different conditions. Corrosion-free brass metal product improves the hygiene of sanitary application. Also, brass metal retains its aesthetic value even after a decade of use. It holds its strength and lasts longer, making it a cost-effective solution.

Brass Plumbing Parts

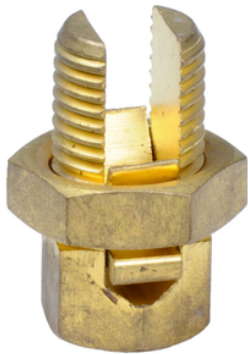

Brass is a highly used metal in the plumbing industry. It is a durable and stronger material that can withstand high pressure. Corrosion free metal prevents the contamination of the water. Also, brass products are easy to shape, thus offering an instant solution to design and develop particular types of plumbing parts necessary to function your application. Easy to install, tight seal, and support different configurations. Get pipe attachments, plumbing parts, flare fittings, brass connectors, and threaded fasteners.

One Stop Solution For All Metal Parts

Serving 100% Satisfaction

Brass Electrical Parts

Brass electrical parts are manufactured using high-grade raw materials specially chosen to produce safe electrical parts. Durable material ensures the reliability of the brass electrical parts when used in various applications. Each piece of manufacturing is supervised by the experience personal. We produce electrical parts as per industry standards. Special requirements are also accepted to build custom-made electrical parts for specific usage.

Brass Fasteners

Get brass fastener products of different sizes, shapes, grades, and scales. Experienced engineers and artisans undertake our brass fastener product manufacturing to produce the product with the highest precision. Advanced machinery reduces production time and fulfills the mass production demand. Each product is developed according to the industry standard under experts' supervision.

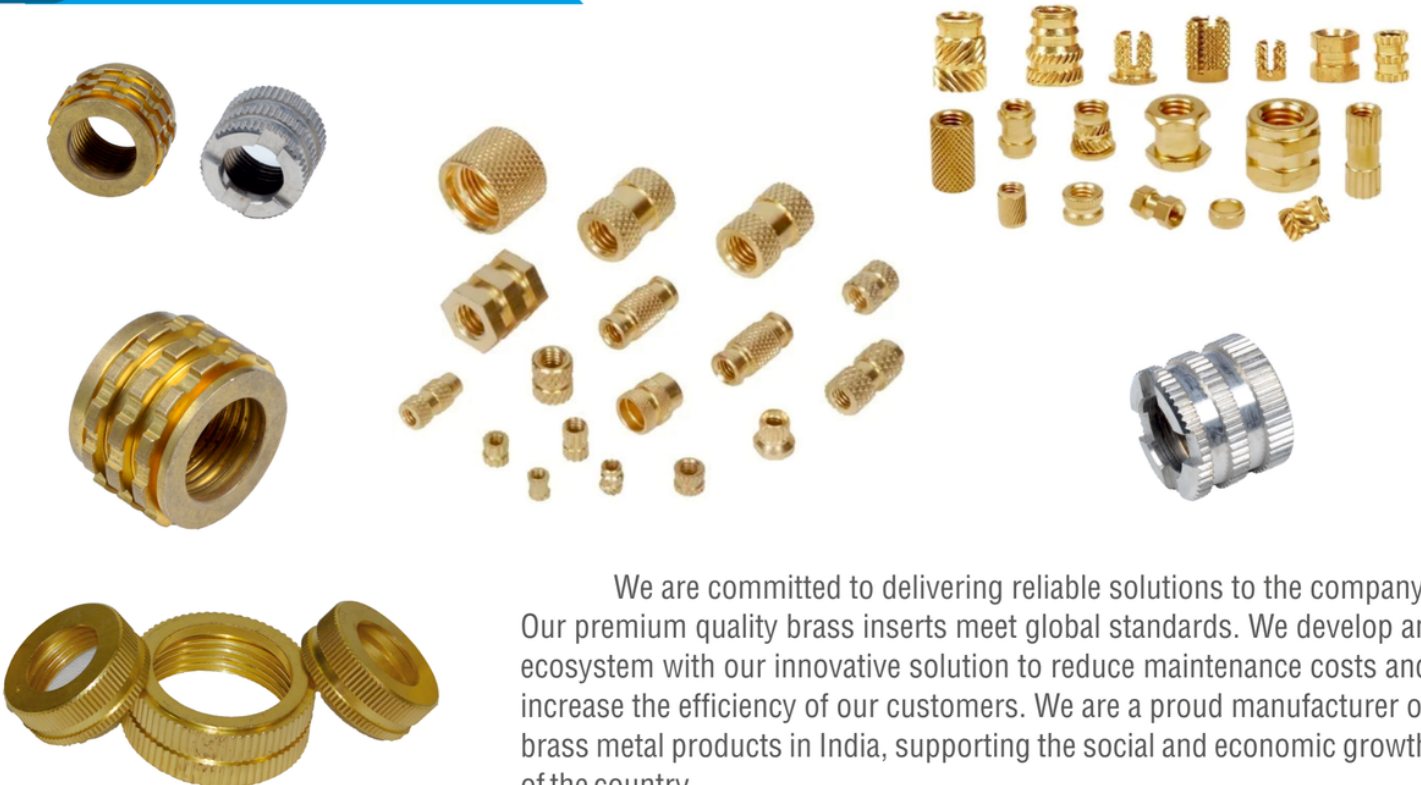

Brass Cable Glands

We have achieved a distinct position in the manufacturing and supplying of brass cable glands. Our solutions are designed to facilitate small and large companies to create reliable and cost-effective applications. Brass cable glands are made of durable material. We consider the product's affordability during manufacturing to provide cost-efficient solutions to our customers.

Brass Inserts

We are committed to delivering reliable solutions to the company. Our premium quality brass inserts meet global standards. We develop an ecosystem with our innovative solution to reduce maintenance costs and increase the efficiency of our customers. We are a proud manufacturer of brass metal products in India, supporting the social and economic growth of the country.

SURAJ BRASS INDUSTRIES

AN ISO 9001 : 2015 CERTIFIED COMPANY

Brass Construction Parts

We have automated and semi-automated machines to manufacture brass construction parts. Our production cycle begins with understanding customer requirements, casting, machining, polishing, and packaging. We can make customize construction parts according to customer requirements. Corrosion free construction parts give strength to the application and increase the product's life span.

Brass Customized Parts

Our brass customized parts manufacturing solution provides an unparallel experience. We are known for crafting top-notch brass products used in different applications.

In-house manufacturing facilities allow us to change the working depending on the customer's requirements. Our team is flexible and quickly adopts new changes to serve customers with the best quality products. We can fulfill your customized brass parts development with ease.

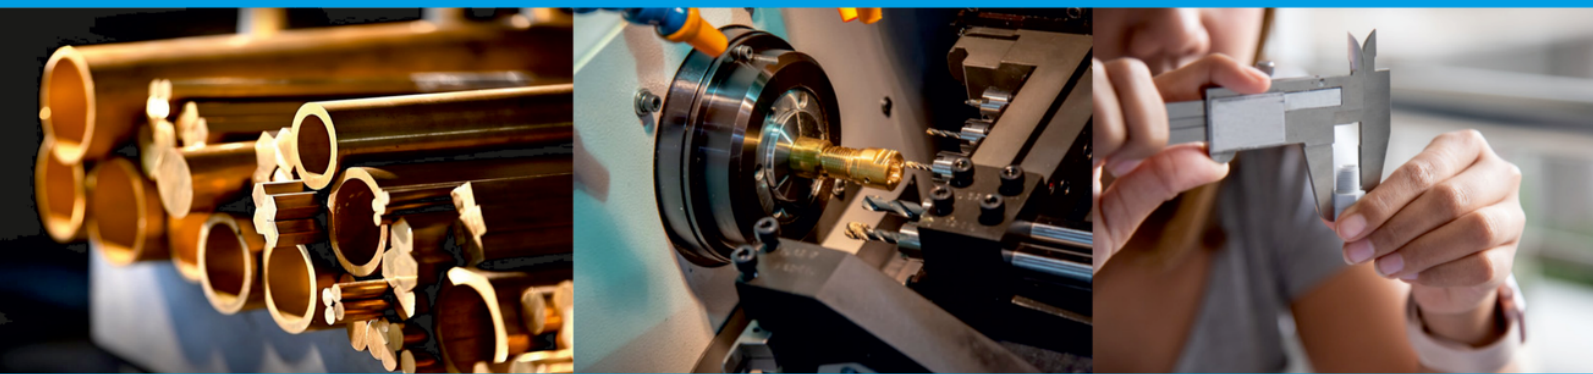

Brass Turned Components

We are specialized in brass-turned components manufacturing, supplying, and exports. Each brass-turned components produce in a factory is the outcome of precision engineering and fine craftsmanship. We manufacture brass-turned components for various applications and serve diverse industries. Share the details and leave the production to our team of experts.
